MAIL DELIVERY SECURED BY CONGRESSMAN RANDALL FOR SIERRA MADRE P. O.

Free mail delivery has been granted for the Sierra Madre post office, according to a telephone message from Congressman Randall, received last night by Postmaster Morgridge.

Because of a number of formalities to be gone through with, it is impossible to say just how soon delivery service will begin. It seems likely to come within a few weeks, or by the end of the present year at the longest.

First in State

Sierra Madre will have the distinction of being the first post office of the third class in California to have delivery service. Heretofore free mail delivery has been limited to post offices of first and second classes. Annual postal receipts of \$10,000 were required, which were seldom reached in cities of less than 5,000 population.

Sierra Madre will have what is officially designated as "Village Delivery" service. There is no difference in the service, but mail carriers are not under civil service classification as are carriers and clerks in first and second class offices. The distinction is purely for administrative purposes of the post office department.

Village Delivery service is now extended to post offices of the third class having annual receipts of \$5,000 or more. For some time this class of service has been conducted in a few eastern towns on an experimental basis, a small appropriation having been made for the purpose. The last post office appropriation bill increased the allowance so that the service can be extended somewhat.

Universal Service

It has been the policy of the present postal administration to make the really wonderful service of the post office as nearly universal as possible. Since establishment of the rural free delivery system there has been a feeling that the medium sized towns were getting the worst of it, not being as well off as either city or country. Village Delivery represents the effort of the administration to equalize postal facilities for the whole country.

Quick Action

Formal application for the establishment of delivery service in Sierra Madre was made some time ago by Postmaster Morgridge. In addition to the application to the post office department, the services of Congressman Randall were enlisted in the case.

Mr. Randall had been called to California by the serious illness of his mother, and while in Los Angeles visited Sierra Madre for the express purpose of investigating the application. He immediately telegraphed his approval to the post office department at Washington. Within 48 hours he was notified by wire that the application would be granted.

As a member of the house committee on post offices and post roads, Mr. Randall is in close touch with the department and that fact undoubtedly had much to do with securing such prompt attention for his request.

Requirements for Service

Before the service can commence it will be necessary for a post office inspector to visit Sierra Madre to go over the situation. He will make report to the department as to the territory to be covered, equipment needed, etc. It will then be necessary to secure equipment, appoint carriers and make some other arrangements before the delivery of mail begins.

Numbers Required

Certain requirements are imposed on patrons before mail will be delivered to their residences. Sidewalks must be in good condition. Mail boxes are required on residences, but not stores which are open during delivery hours. Houses must be numbered and street signs installed at all intersections in the carrier district.

For some patrons of the post office it will be more convenient to receive mail at the post office as at present than at their residences. That will also be true of some business houses which will find an advantage in receiving mail in their lock boxes a little sooner than would be possible by carrier.

For the greater part of the population delivery service will be a boon. This is especially true in families where on account of sickness or other reason there is no one who can visit the post office frequently or regularly.

FIVE FOLD APPLICATIONS FOR SHORT FARM COURSE

Five times as many farmers have applied for admission to the farmer's short courses at the University of California farm at Davis this fall as had given notice of intention to attend at this time a year ago. Plans are being made to duplicate the sections, in order that every farmer who attends may receive a maximum of personal attention.

There will be short courses in Animal Husbandry, Dairying, Farm Management, Agricultural Engineering, Field and Forage Crops, Irrigation and Veterinary Science from Sept. 24 to Nov. 2, and a short course in the use of farm tractors from Nov. 5 to 15.

ADVERTISING PRINCIPLES BY HUGH CHALMERS

To my mind there are only three fundamental principles in advertising, namely:

- Be honest.
- Be sensible.
- Be persistent.

I say be honest because every advertiser should remember advertising does not create value, it merely tells it. The value has to be in the article itself.

I say be sensible, because the majority of people who read copy are endowed with good common sense.

I say be persistent, because you have to keep everlastingly at it. People soon forget and unless we keep persistently at advertising we had better not begin at all.

CHRISTIAN SCIENCE

Christian Science Society of Sierra Madre hold services in the Woman's Club House every Sunday at eleven A. M. Subject September 23, "Matter." Sunday School at 9:30.

"Does your husband worry about the grocery bill?" "No, he says there's no use in both himself and the grocer worrying over the same bills." —Topeka Capital.

RED CROSS WILL AID IN FINDING THE LOST

Important Service Undertaken In Europe at Request of State Department

At the request of the Department of State, the American Red Cross has undertaken, through its bureau of Communication, to communicate messages or inquiries from persons in America concerning the whereabouts and welfare of persons residing in the countries of the central powers in territory occupied by them.

In other belligerent countries this communication is possible, since all enemy subjects being held either as civil or military prisoners of war have the privilege of correspondence granted by international agreement. The United States has not classed German civilians as prisoners and consequently the closing of postal service to the central powers has caused serious individual hardship.

The government of the United States proposes, through the American Red Cross, to relieve this unnecessary suffering.

How to Proceed

Individuals wishing to make inquiry concerning the welfare and whereabouts of friends or relatives in territory belonging to, or occupied by, the central powers, may communicate with the Bureau of Communication, American Red Cross, Washington, D.C. Proper inquiries and messages will be transmitted on a special form to the International Red Cross in Geneva. From Geneva they will be forwarded to the individuals for whom they are intended.

Answers will be returned to the International Red Cross and by them will be sent to Washington. The Red Cross will then communicate the information received to the writers of the original letters. Two two-cent stamps must be enclosed for the postage.

A similar method is being devised for the transmission of inquiries from the central powers to America. This will also be handled by the Red Cross.

The following points are to be observed by all inquirers:

1. Letters of inquiry must be addressed to the bureau of communication, not to the person concerning whom inquiry is made.
2. Letters must be concise, since only the briefest communication can be sent.
3. They must mention only personal matters, such as communications concerning the condition of members of the family and requests for similar information.
4. Letters must be legible and must be in English, French, Russian, Italian, German, Polish or Hungarian.
5. They must contain the full name, address and occupation of the sender, and the full name, address, occupation and age of the person for whom the inquiry is destined.
6. Inquiries may not be made oftener than once in six weeks.

The Bureau of Communication reserves the right to refuse to transmit any information or inquiry which appears to be contrary to the national welfare.

TO ENTERTAIN DIRECTORS

President Ham of the Board of Trade will entertain the directors of the organization at his home next Monday evening. Plans will be laid for launching the fall activities of the board. The first regular meeting will take place on Monday evening, October 1.

"HITCH THE STARS TO YOUR WAGON"

Interest in the series of Sunday morning sermons by Mr. Wilson at the Congregational church increases in spite of the unfavorable weather of the last two Sundays. Following an introductory sermon on "The Religious Awakening Needed Today," Mr. Wilson last Sunday dealt with the first point of a "four-square religion" when he stressed the "rational" side of Christianity under the caption of "Turn on the Light." The "Spiritual Reinforcement" will be discussed next Sunday, involving such questions as "What is spirituality?" and "How attain spiritual efficiency." The title of the sermon is "Hitch the Stars to Your Wagon."

Two sermons on the ethical and social phases of religion are announced to follow. The object of the series as announced by Mr. Wilson, is to present a basis of life at once credible to the intellect and inspiring to the soul, which will eventuate in rational living and community service. In the words of another, "Let our doctrines and our forms fit the soul, as the limbs fit the body, growing out of it, growing with it. Let us have a church for the whole man: truth for the mind; love for the heart; good works for the hands; and for the soul that aspiring after perfection, that unflinching faith in God which, like lightning in the clouds, shines brightest when elsewhere it is most dark." This, it is pointed out, is not a new gospel, but rather a rediscovery of the religion of Christ; Christianity interpreted in the terms of present day knowledge and presented in vital relations to our own times.

GULF STATE FOLK TO HOLD PICNIC

A cordial invitation to all former residents of the Gulf states, Texas, Louisiana, Mississippi, Alabama and Florida, is extended to attend a great popular reunion in Sycamore Grove, Los Angeles, September 29, all day, with basket dinner at the noon hour. There will be registers for all the counties of all the states, to make it easier for old friends and neighbors to get together.

CIVIC LEAGUE TO HOLD FIRST FALL SESSION

The first fall meeting of the Sierra Madre Civic League will be held in the Woman's Club House. President Johnson urges a large attendance, saying it is entirely up to the residents of Sierra Madre to determine the question of maintaining an organization for the important objects in view when the League was organized.

EPISCOPAL CHURCH

Church of the Ascension, the Rev. Dr. George H. Cornell, Rector. Vested choir. Sixteenth Sunday after Trinity. Sunday School, 9:45 a.m.; Morning prayer and sermon, 11 a.m. All are cordially invited.

They were discussing the old joke about getting down off an elephant. "How do you get down?" asked the jokesmith for the fourth time. "You climb down." "Wrong." You grease his sides and slide down." "Wrong." "You take a ladder and get down." "Wrong." "Well you take the trunk down." "No, not quite. As a matter of fact, you don't get down off an elephant at all: you get it off a goose." —Indianapolis News.

MARGUERITE CLARKE WILL PLAY "BAB"

Who hasn't read the "Bab's Diary" series of stories in the Saturday Evening Post? There's a laugh or a smile in every paragraph, for Bab, the emotional and self-opinioned young philosopher, is as natural as a young song bird.

W. H. Clune evidently believes in the "Bab" series in the moving pictures will be appreciated by the public because he has secured for Clune's Auditorium the first run of five-reel pictures produced from the "Bab" series.

Marguerite Clark, the most lovable little moving picture star now appearing on the screen, plays the part of Bab. As the soulful Bab she is a "scream." The muddles and troubles she encounters in her efforts to prove her youthful philosophy superior to the experience of her parents and other grown-ups are unending in their laughable absurdity. It is also clean and sweet, so different from the rough stuff and slapstick work, with just as many, and more, real hearty laughs. Marguerite Clark will appear in the first picture of the new series at Clune's Auditorium next Monday, Sept. 24.

MUNICIPAL GAS PLANTS RAISE THEIR RATES

Operating at a loss, the municipal gas plants of Huntington Beach and Newport Beach have appealed to the state railroad commission for permission to increase their gas rates and the commission has permitted both cities to advance their rates from \$1.00 per 1,000 cu ft., to \$1.50 per 1,000.

Newport had reduced the gas rate on March 1, 1917, to the dollar figure. But the prevailing prices for materials of all kinds proved the rate too low and the price was put higher than before after the railroad commission had made careful investigation.

Many other cities of the country have had advances in gas rates recently, including a part of Los Angeles, Pasadena, San Marino, Eagle Rock, Huntington Park, Vernon, Inglewood, and many others. Not less than a score of large eastern cities have also had gas rates raised recently.

DISTRICT CONFERENCE OF CLUB WOMEN

There will be an all-day conference of club women on Thursday, September 27, in the Broadway Dept. Store auditorium in Los Angeles, beginning at ten a.m. The district federation secretary announces that there will be splendid speakers and parliamentary drill. All club women are urged to attend.

MASS MEETING CALLED FOR WOMEN

A mass meeting on war work for women will be held Friday, Sept. 28, in the Broadway Department store auditorium, Los Angeles, under the auspices of the Woman's Committee, County council of defense. Herbert Hoover's representative, Ralph Merritt, state food administrator, will speak on women's part in winning the war. Other prominent speakers will appear on the program. Every woman interested in doing her bit is invited to be present. The hour is 2 p.m.

ARMY Y.M.C.A. IS 'HOME' TO SOLDIER BOYS

When the drafted men of the new national army arrive at Camp Lewis, American Lake, Washington, they find thoroughly equipped and manned Army Y.M.C.A. buildings. They are a boon to the thousands who are now arriving daily.

Tons upon tons of writing paper and envelopes are within reach, books and magazines are carefully laid out, the well lighted buildings provide ample accommodations for writing letters home, for recreation and for comfort. And everything is free.

Wherever American soldiers go into camp, this same welcome awaits them. The sign of the Red Triangle of the Y.M.C.A., means that within the walls of the building a friendly welcome waits, that everything in the building is at his disposal and there are neither don'ts nor dues.

The secretaries are trained, efficient men who strive to please him, to look after his comfort, to advise and cheer. It is a place where he may go when he is homesick or weary and find genuine comrades of the best sort, or where he may take his money for deposit.

Whatever the Army and Navy Y.M.C.A., can do to make a man physically, morally and mentally fit for the best service to his country, it is striving to do. Educational classes are instituted for those who desire to improve their leisure hours. There is a religious inspiration for those who seek it, although enjoyment of the association facilities is not limited to any creed or sect.

The Y.M.C.A., is the great club of the enlisted man. It is open to all. It is the bureau of information in every camp and cantonment, the center from which radiates all the physical and social activities. It is the nearest thing to home that the enlisted man will find in the army.

EDITING A NEWSPAPER

Editing a newspaper is a very pleasant business—if you can stand it, says an exchange.

If business is bad it's because the publisher wants too much money for his advertising space.

If business is good, advertising hasn't anything to do with it—conditions are merely right.

If we print what pleases the people, that is our business and we deserve no credit.

If we print what displeases, the editor is a grouch and a crepe hanger and doesn't deserve the public's patronage.

If we print the news as it really is, people call us over the phone and tell us to stop their paper.

If the news is garbled, the paper is subsidized by the corporation interests.

Southern California Edison Company

Offers Subject to Prior Sale

\$917,400 Common Capital Stock

Following the precedent established by other large utilities in the United States, the Southern California Edison Company under the authority of the Railroad Commission of the State of California, offers its consumers and the public an opportunity to secure an attractive investment upon very reasonable terms.

The Company owns or controls a comprehensive and thoroughly modern electric system supplying over 150 cities and towns. It operates in ten Counties in Southern California and the San Joaquin Valley, with an area of over 55,000 square miles and a population of over 1,000,000.

The Edison System includes generating plants with a total installed capacity of 301,115 horse-power, of which 156,520 is water power. With this large amount of hydro-electric power it is in a strong position to maintain its present low operating costs, regardless of fuel and labor conditions.

During the past ten years the combined gross and net earnings of the properties have more than tripled and present earnings are ample to meet all dividend requirements. As a result of the purchase of the Pacific Light & Power Corporation properties large economies in operation will be effected, thus materially increasing the surplus available for stockholders.

TO REACH SIERRA MADRE

By Trolley—Take Sierra Madre cars leaving hourly at Pacific Electric Station, 6th and Main, Los Angeles. The scenic ride is the most beautiful on the Pacific Electric system. From Pasadena, take Lamanda Park car, change at El Camino.

By Auto—From Los Angeles by way of North Broadway and Huntington Drive to Colorado St., Santa Anita Ave. to Foothill Blvd. Turn north at Sierra Madre or Baldwin Ave. Or, take any route through Pasadena, then east on Colorado St., to Santa Anita Ave., then by Foothill Blvd., and Sierra Madre or Baldwin Ave.

Sierra Madre's peculiar charm has been felt and praised by nearly everyone who ever visited and lived here. Many factors combine to make the charm potent—the sense of exaltation in life on the heights; the inspiring view; the invigorating air, kept pure by the currents moving continually up and down the slope; the feeling of intimacy with the nearby mountains; the ease with which a love for outdoor life and recreation is gratified; the great variety of available homesites; the conveniences of the city with all the joys of life in the country.

It is as a home community that Sierra Madre claims pre-eminence. Here you can have a small house and lot, a larger place with fruit and garden plot, or a few acres with an orchard. Everything grows well here and Sierra Madre has suffered less from frost than any other community.

No community has a higher type of citizenship. Socially and morally Sierra Madre ranks high. There is a cosmopolitan population recruited from all over the world.

Sierra Madre has made rapid progress in the movement for civic beauty, with clean streets and beautiful homes and gardens. Public health is guarded scrupulously. The Board of Trade and city administration are constantly at work upon enterprises which promote the community welfare.

SIERRA MADRE WILL LAG NO MORE BEHIND CITIES

Thanks to the good offices of Congressman Randall and the advanced policy of the present postal administration, Sierra Madre will soon be on an equal footing with the larger cities in all those conveniences which help to make life easy and pleasant. Lack of free mail delivery has been the most frequent ground for complaint on the part of new residents, especially those coming from the cities. Within a short time that defect will be remedied. Mr. Randall deserves and will receive the cordial thanks of the community for the active personal interest he has taken in the matter.

NOT IN IT WITH EUROPE

Explorers have discovered the world's largest volcanic crater, called by the Alaskan Indians "The Mouth of Hell." Those poor, benighted Indians don't know anything about the war being waged by their civilized brothers in Europe or they would have found a milder name for their volcano.

IS THE PARTNERSHIP DISSOLVED?

One of the Kaiser's spokesmen writes editorially: "God only knows by what underground system the American American state department obtained the documents" in the Swedish case. Does the Herr Editor imply that the partnership between God and the Kaiser has been dissolved? That "God only" would so indicate.

THEY WERE STILL YOUNGER IN '61

Now and then some Grand Army veteran is heard to remark that we are entrusting the nation's battles to a lot of very young boys. And any body of troops looks it. But we should not forget that in the war of '61 there were boys of 10 years, some of 11 years, 105,000 who were of 14 years, 300,000 who were 15, and 1,800,000 who were between 15 and 21 years.

PARTNERSHIP IS OFFERED TO EDISON CUSTOMERS

With the granting of the State Railroad Commission of the application of the Southern California Edison Company, to offer for sale to officers, employees and the general public a portion of the \$2,500,000 par value of its common capital stock, recently authorized by the Commission, President John B. Miller has issued a statement announcing that the Edison will follow the practice of other large and successful electrical companies of America, giving its consumers the opportunity of becoming partners in the business and sharing in the profits of the Company on terms that permit the smallest saver and investor to participate.

This stock which is offered at \$89.00 per share, cash, and \$90.00 per share on installments of \$5.00 per share per month, pays dividends at the present time quarterly at the rate of 7% per annum, which at the price of \$90.00 per share yields a return on the investment of about 7 1/2%.

A substantial part of this stock has already been subscribed for by the officers and employees of the Company and the directors now give the consumers and the general public an opportunity to purchase direct from the Company a portion of the remainder of the issue. To protect itself against over subscription, as the amount of the issue now authorized by the State Railroad Commission is limited, the Company reserves the right to withdraw its sale offer at any time prior to October 15th, and to return any subscriptions that may be received after the issue has been sold out. The privilege of allotting stock in a less amount than subscribed, is also reserved as it will be the policy of affording as many as possible of the smaller subscribers, particularly among the consumers, an opportunity to become stockholders and profit sharers in the production and sale of the electric product of the Greater Edison Company, which they are using in their homes or in their business.

Among the features of the common stock to which Mr. Miller calls attention in his public statement are the following:

That it could not be offered without the official approval of the California State Railroad Commission; that it is tax free in California; that its dividends are not subject to normal federal income tax; that it has a recognized market value, both locally and in New York; and in New York and other principal cities it has an established market as collateral, that it has paid dividends over a term of years and that it is not limited as to dividends; that when conditions and earnings warrant dividends may be increased, and that they are declared and paid quarterly; that the conditions of sale of this stock are so

liberal that it is placed within the reach of installment purchasers and small monthly savers, who could not otherwise finance the purchase of high-grade securities of this nature.

The consolidation of the Southern California Edison Company and the Pacific Light and Power Corporation and the subsidiary companies of the latter, the Ventura Light and Power Company operating in Ventura, and the Mount Whitney, supplying electricity to the "Kingdom of the San Joaquin," under an order of the Railroad Commission last May, makes the combined property one of the largest electric generating and distributing organizations in the world and insures permanent stability of the Company's business and its securities. It now operates in a territory equal to that of New Hampshire, Vermont, Connecticut, Rhode Island, New Jersey and Delaware, serving one hundred and fifty cities, towns and intervening rural communities, supplying approximately 175,000 consumers and owning and operating sixteen hydro-electric and steam power stations; with a combined generating capacity of over 300,000 horse-power, two gas plants and electric street railway and fifty-six miles of standard gauge steam railroad.

During the past year over ninety per cent of the total electric output of the property was generated from the water power plants which attests its unique position of ability to maintain its low operating costs, which is in marked contradistinction to the increased cost of production, which is advancing all other commodities of life, excepting electricity.

The Company owns enough water rights that have not yet been completely developed to double its present generating capacity. This fact insures an indefinite continuation of the lowest possible cost of production, without impairing earnings or dividends.

During the last ten years the combined gross and net earnings of the properties constituting the present Edison System have more than tripled, and for the year ending on the 30th of last June were as follows:

Gross Earnings\$9,252,627
Operating Expense and Tax. 3,646,657

Net Earnings\$5,605,970
Bond Interest2,555,041

Balance for Dividends and Depreciation Res.\$3,050,929

This statement was made previous to the merger and does not take into consideration or make deductions from operating expenses of \$400,000 per annum, which will be saved by eliminating duplication and by joint operation.

SIX RULES FOR PREVENTING FIRES IN THE MTS.

1. Matches—Be sure your match is out before you throw it away. Matches whose heads glow after the flame is out are dangerous.
2. Tobacco—Throw pipe ashes, and cigar or cigarette stumps in the dust of the road, and stamp or pinch out the fire before leaving them. Don't throw them into brush, leaves or needles.
3. Making Camp—Build a small camp fire. Build it in the open, not against a tree or log, nor within fifteen feet of standing brush. Scrape away the trash from all around it.
4. Leaving Camp—Never leave a camp fire, even for a short time, without quenching it with water and then covering it with earth.
5. Bonfires—Bonfires are not permitted on the Angelus National Forest.
6. Fighting Fires—If you find a fire, try to put it out. If you can't, get word to the nearest U.S. Forest Ranger or State Fire Warden at once. Keep in touch with the rangers.
